DataBasics Information Bulletin Special

Cumulus 8 edition - 2 June 2009

Canto Cumulus 8 Workgroup /Enterprise Editions now available and Single User edition coming soon. See the Press release online at http://www.databasics.com.au/docs/canto_cumulus8_pr.pdf (pdf)

Canto says "Without a doubt, Cumulus 8 is the most exciting new product release to come from Canto in the company's 19-year history. Built on new technologies Canto has been seeding and testing in the product line since Cumulus 7.1, Cumulus 8 not only delivers tons of new features and capabilities today, it solidifies the technological foundation Canto needs to further DAM's evolution in the coming years."

DataBasics is very excited at the release of Cumulus 8 and the new features and functionality that it offers. For a quick Flash demo of the new features visit <http://www.canto.com/en/docs/flash/intro-demo-8/index.php> and see Canto's blog at <http://blog.canto.com/?p=3213&language=en>

For the complete list of new features and functions, download the *What's New in Cumulus 8* pdf from our ftp site via our website (beware = 10.9MB!) http://www.databasics.com.au/docs/whatsnew_cumulus8.pdf

Pricing and Availability

A new pricelist is available online with revised downward pricing to reflect the better exchange rate. As a result, Cumulus is slightly cheaper than in the January pricelist but the bundling is different - http://www.databasics.com.au/docs/canto_auprice.pdf Single User edition is included though not due for release until end of June - more details below.

Cumulus 8 Workgroup and Enterprise editions are available for immediate download for existing Cumulus Workgroup and Enterprise customers who have an existing Software Maintenance contract - from Canto's website using the Customer Portal <http://customer.canto.com/>. You will need your current serial ID - available on your Cumulus License or in your current license letter from DataBasics or your reseller. If you do not have a user ID and password to access the Customer portal, please email Canto directly at info@canto.com

Customers wishing to upgrade without an existing Software Maintenance contract, please call us on 1300 886 238 (within Australia) or email info@ databasics.com.au.

DataBasics will be producing Cumulus 8 disks with all the system installers and documentation in July when we receive disk images and graphics etc from Canto and after the release of Single User edition.

...see over page

All customers with Software Maintenance Contracts will automatically receive the Cumulus 8 disk either directly from us or from your reseller.

We will also be producing Cumulus 8 demo disks at that time.

SINGLE USER Edition

Canto has advised that the long-awaited Single User edition of Cumulus 8 will be released at the end of this month (June 2009).

DataBasics will be producing demo and product disks shortly after the release date. Please email us if you'd like to be on our mailing list for more information about the Single User edition.

Upgrades will be available for existing Cumulus Single Users and also for Mediadex customers - please contact us with details of your existing installation and serial ID.

To be on our mailing list for more information email info@databasics.com.au
